INDEX TO VOLUME LXI 1993

SUBJECTS

Accounting issues
failure to communicate, 152–154
general ideas and terms and the growth of reason, 444–447
implications of USPAP for financial community, 90–99

Appraisal (*see also* valuation)
appraisal management in regulatory environment, 105–110
appraisers and credit crunch, 63–70
considerations in distressed markets, 206–226
cost approach: inflexible or infeasible, 136–137
cost approach methodology, 116–128
disclosing limitations of, 364–372
evolving paradigm, 189–197
lender perceptions of appraisal quality after FIRREA, 227–233
validity of cost approach, 132–135
validity of use of three approaches, 553–564
of contaminated property, 28–41
perceptions of value, 71–78
purchasing or selling an appraisal business, 373–379
report-writing skills, 431–436
role of a checklist in avoiding errors, 261–266
Stein rule estimation in, 539–544
traditional use of approaches in, 129–379
what clients want from reports, 272–275
rural credit markets and appraisal standards, 100–104

Appraisal firms
developing file memoranda system, 438–443
improving appraisal reviews, 414–418
management by objective, 380–385
quality appraisal reports, 483–488
role of checklist in avoiding report errors, 261–266
selling or purchasing an appraisal business, 373–379
what clients want from reports, 272–275

Appraisal review
improving effectiveness and efficiency, 414–418

Arbitration
process of, 234–238

Cash equivalency
note on, 144–146

Comparable sales adjustments
of overall rates and gross income multipliers, 570–575

Construction issues
footings and foundations, 279–283
wall systems, 622–625

Contaminated property
effects of asbestos on commercial property, 587–599
impact of hazardous waste sites on value, 42–51
issues in valuation of, 28–41

Cooperative apartment buildings
valuing sponsor shares for, 323–331

Cost approach
depreciation estimates for, 267–268
inflexible or infeasible, 136–137
methodology, 116–128
questioning tradition, 129–131
thoughts on, 132–135

Depreciation
estimates, 267–268

Direct capitalization
discounted cash flow analysis or direct capitalization, 390–393
theory, assumptions, and limitations of, 419–425
use of capitalization grid when making overall cap rate and gross income multiplier adjustments, 570–575

Discounted cash flow analysis
comments on, 394–398
direct capitalization or DCF analysis, 390–393
tests of reasonableness, 138–143
use in valuing property in overbuilt markets, 332–341

Distressed markets
appraisal considerations in, 206–226
valuation of income property in overbuilt markets, 332–341

Environmental issues
effects of asbestos on commercial real estate, 587–599
impact of hazardous waste sites on property value, 42–51
issues in valuation of contaminated property, 28–41

Ethics
disclosing an appraisal's limitations, 364–372
in hotel appraising, 357–363
professionalism and the role of Appraisal Institute, 616–618

External obsolescence
supply saturation-induced, two techniques for quantifying value loss, 545–552

Feasibility
financial feasibility criteria in highest and best use analysis, 269–271
identifying well-founded market analysis, 500–508
site selection and location analysis with GIS, 245–253
tests of reasonableness for DCF analysis, 138–143
use of retail gravity model to determine feasibility of retail centers, 509–518

Financial issues
appraisers and credit crunch, 63–70
cash equivalency, 144–146
current economic trends and their implications, 619–621
financial theory of direct capitalization, 419–425
future office building investment, 307–315
implications of privatization, 478–482
implications of use of DCF analysis for financial community, 394–398
implications of USPAP for financial community, 90–99
rural credit markets and proposed changes in standards, 100–104

Forecasting methods
forecasting likely job growth or decline with net deficit technique, 254–260

Geographic Information Systems (GIS) software
application in site selection and location analysis, 245–253

Golf courses
appraising for ad valorem tax purposes, 611–615

Highest and best use
no-nonsense approach to, 269–271

Hotels
considerations in valuation of, 348–356
determining hotel value components for tax assessment, 342–347
ethics in appraising of, 357–363
myths about hotel business and personalty value, 608–610
unique aspects of hotel property tax valuation, 9–27, 608–610

Income stream analysis
six factors of one dollar actually fourteen factors, 399–404

Information systems
computer-assisted real estate appraisal, 524–532
improving effectiveness and efficiency of appraisal reviews with, 414–418

Land residual method
alternatives to (case study), 239–244

Legal issues
disclosing appraisal limitations, 364–372
limited-scope appraisals, 471–477
process of arbitration, 234–238
role of sale price in valuing for tax assessment purposes, 155–160
trap for unwary: scope of appraisals, 494–499
valuation of FHA apartment projects for tax purposes, 448–450

Limited-scope appraisals
issues concerning, 471–477
trap for unwary: scope of appraisal, 494–499

Linear regression analysis
importance of order of variables in application of, 576–586

Market analysis
identifying well-founded analysis, 500–508

Market value
and public value, 52–62
does one size really fit all, 565–569
marketing/exposure time, 489–493
practical solution to market price, 437–438

Marketing period
how long should it be, 276–278
marketing/exposure time and market value estimates, 489–493
use of exposure time in estimating market price, 437–438

Mortgage issues
analysis of mortgage constant and payments, 399–404
wraparound mortgages in installment sales, 426–430

Multiple regression analysis
advantages of in appraisal process, 553–564
equation-based and adjustment-based approaches to timber appraisal, 111–115
impact of corporate ownership on residential transaction prices, 198–205
Stein rule estimation versus ordinary least squares (OLS) analysis, 539–544
use of to analyze effects of intra-neighborhood traffic levels on value, 533–538

Net deficit technique
forecasting likely job growth or decline with, 254–260

Office buildings
perspective on future investment, 307–315

Partial interests
valuation techniques, 600–607

Privatization
of agencies and assets, 478–482

Professional development
appraisal management in regulatory environment, 105–110
appraisers and the credit crunch, 63–70
appraisers as artists, 316–322
developing file memoranda system, 438–443
effects of state certification on, 405–413
future trends, 147–151
identifying well-founded market analysis, 500–508
improving written appraisal reports, 431–436
perceptions of value, 71–78
professionalism and the role of Appraisal Institute, 616–618
quality appraisal reports, 483–488

Public value
and market value, 52–62

Regulation
appraisal management in regulatory environment, 105–110
effective long-term capital gains tax rates under Revenue Reconciliation Act of 1990, 79–89
effects of state certification on appraisers, 405–413
effects of on three approaches, 553–564
evolving appraisal paradigm, 189–197
impact on future trends in appraisal, 147–151
lender perceptions of appraisal quality after FIRREA, 227–233
use of wraparound mortgage in installment sales, 426–430

Residential issues
adjusting house prices for intra-neighborhood traffic, 533–538
house sizing: a cooperative venture, 519–523
impact of corporate ownership on residential transactions, 198–205
valuation of owner-financed residential mortgages, 386–389
valuing sponsor shares in a co-op apartment, 323–331

Retail gravity model
assumptions underlying, 509–518

Standards of appraisal practice
effects of on use of three approaches, 553–564
implications of USPAP for financial community, 90–99
limited-scope appraisal issues, 471–477

State certification and licensing
effects on appraisers, 405–413

Stein rule estimation
in real estate appraisal, 539–544

Tax issues
appraising golf courses for ad valorem tax purposes, 611–615
aspects of hotel property tax valuation, 9–27, 608–610
determining hotel value components for ad valorem tax assessment, 342–347
impact of hazardous waste sites on value according to tax assessors, 42–51
long-term capital gains tax rates, 79–89
role of sale price in valuation of property for tax assessment, 155–160
valuing FHA apartment projects for tax purposes, 448–450

Three approaches
validity of use of three approaches, 553–564

Timber valuation
approaches to transactions evidence timber appraisal, 111–115

Valuation
alternative to land residual method, 239–244
of FHA apartment projects for tax purposes, 448–450
of golf courses for tax purposes, 611–615
of hotels, 9–27, 342–347, 348–356, 608–610
of income property in overbuilt markets, 332–341
of owner-financed residential mortgages, 386–389
of partial interests, 600–607

CASES IN BRIEF

Acquisition-value tax assessment scheme upheld, 286

Assessed value of hog confinement unit found unreasonable and arbitrary, 287

Consideration of revenue potential to value apartment complex found improper, 284–285

Did EPA act unreasonably in causing delay leading to property destruction, 627–628

Estate containing limestone rock not a quarry for real estate tax purposes, 451–452

Financing found not relevant to value of mall for property tax purposes, 167

Income approach found valid for determining fair market value in taxation case, 284

Market approach deemed valid in tax assessment of property subject to long-term lease, 626

Mass appraisal method upheld in taxation case, 167–168

Mobile home rent control does not constitute a taking, 451

Open-space exemption denied in Texas, 168–169

Professional liability insurer must defend and indemnify residential appraiser, 452–453

Property leased for profit to charitable entity found not exempt from taxation, 285–286

State agency's denial of residential construction permit on land designated as wetland upheld, 626–627

Tax exemption not granted to charitable institution, 286–287

Total regulatory takings of property must be compensated, 452

Use of gross income multiplier upheld for tax purposes, 169

Value in use not found relevant in tax assessment cases, 627

Wholesale or retail value proper in inverse condemnation case, 285
